

TINMOG

Cornwall Centre of the MORGAN SPORTS CAR CLUB

WWW.TINMOG.ORG.UK

WELCOME TO THE JUNE 2018 NEWSLETTER

Now, this is what I call Morgan weather! Just hope you're not all too busy tending to outdoor DIY and watering the garden to get out and enjoy it!

MIDSUMMER LUNCH AT LANLIVERY

On Thursday July 21st – Midsummer's Day – twenty members of Tinmog met at the Crown Inn Lanlivery. Once again it appeared that we had arranged excellent Morgan weather and most of us had enjoyed a lovely summer run from our various homes before gathering in the garden for a drink before our lunch. It was good to welcome several new members too.

It was also good to see ten Morgans parked in the car park, including new members Paul and Jackie's three-wheeler.

We all enjoyed an excellent lunch in the pub's conservatory, and David and Doreen were thanked for finding such an excellent venue. It was agreed that another lunch event would be arranged in September.

TINMOG EVENTS

14th July - Tapas Evening at the Olive Grove, Perranaworthal organised by Clive and Moyra. Please let me know if you would like to join us. Final details will be circulated soon.

6th September – Lunch at Trevisker Garden Centre near Padstow organised by Brian

12th to 14th October – Autumn Tour to Devon staying at the Ilsington Country House Hotel. If you are interested in joining this event could you please email autumntour@tinmog.org.uk

8th December – Christmas Dinner at the Mullion Cove Hotel

There are a few other events in the pipeline but offers to put a Run or event are ALWAYS welcome. We are always on the lookout for new ideas too.

Other Events

15th July – Wadebridge Wheels – Classic Vehicle Show

29th July – Trewithen Country and Classics Classic cars and country events in the grounds of Trewithen House in aid of the Marie Curie Foundation

There is no organised group as yet for the above events

7th August - Mount Edgcombe American and Classic Car show and Fayre, Mount Edgcombe Country Park, Cremyll. David and Doreen are co-ordinating this. If you would like to take part please contact David (via autumntour@tinmog.org.uk) so we can arrange to arrive as a group.

If you want to take your car to any of the events below and be part of a Tinmog group please complete the appropriate entry form – on all the websites

AND FINALLY...

For those of you who have not heard quite enough about the General Data Protection Regulation, either at our AGM or from every company you have ever had dealings with since childhood and are hungry for more, here is:

Morgan Sports Car Club NCM 3rd June 2018 10.30am Nettle Hill

Synopsis of GDPR Presentation by Gordon Rickerby (member 12983)

Gordon was welcomed by JS & NCM attendees: current registered practitioner in Ireland offered to inform the MSCC of how GDPR regulations are relevant to the Club.

History

The idea of data protection developed after WWII, has become more complex with electronic communication and storage

Structure

11 chapters containing 99 articles; chapters 2 & 3, articles 5-11 & 12-23 are relevant to individuals including principles & rights of the data subject.

EU Data Protection model

The *Supervisory Authority* (government HQ) acts the same for each EU member state (this will not change after Brexit is implemented); all will treat any complaints the same.

Data Controller holds data = MSCC outsources to **Processor** = Capital Letters for mailing Miscellany, RevUp stores individual information including direct debit instructions, Lloyds bank, Selderdeck, Centres & Registers

All living individuals are protected; EU is a major force, so data with regulations adhered to can be moved through the EU and is covered across the globe

Key points

How would you like your data to be used? Apply this to anyone whose information you hold.

What can be done with it if in the wrong hands? Don't print details unless all consents have been given. Then it becomes property of the individual which doesn't have same implications.

Best not to keep unsecure organised files which can easily be searched.

The purpose of keeping records must be clear & precise and only used as stated.

Keep as secure as possible, take all steps to protect the individual as detailed: "with all due regard to state of the art of technology & effective cost, is sufficient being done to protect the data subject?" Does the risk outweigh the effect of the data stored (and printed)? If so change system.

Use encryption so valued information is secure in storage- and when sent electronically

Use pseudonymisation: keep identifying data separate.

BCC e mails

What is the risk of a leak?; exposure by the media to the Club might be worse than penalties considered by the information commissioner.

The MSCC & car clubs are a very small target but are still liable for any breaches of data.

Members have a contract with MSCC is their subscription is current: Centres can use the information with consent, acting on behalf of the Club, but if dealing with lapsed members there is no longer a contract.

Ensure membership lists are up-to-date; opportunity for Centres to revise their routines. Record of consent to print must be kept with intent of use made clear. Data is only retained as long as necessary, lawful, relevant, specific & secure- right to be forgotten. No Officer is required as more regulations would need to be covered; only MSCC need have a policy, covering all Centres & Registers. All Centres & Officers have signed code of conduct therefore compliant. Anyone with a contract with MSCC agrees to regulations: MB drawing up documents for all 3rd party companies

Taking reasonable steps should be enough to satisfy any investigation.

MSCC only has 2 employees and does not require a DP Officer- creates more problems

Penalties

“will be proportionate and dissuasive”, distinction between minor breach (unintentional) and major breach (of principles of data protection). Directors of MSCC are liable for rest of Club

Rights

A request must be answered within 30 days, validation must be made that the data subject is genuine. If not in the subject’s interest there is the right to erasure; the controller (MSCC) has the right to charge admin fees if legitimate.

Compliance

Ongoing process: all new appointments need to be trained, have sight of the presentation, sign code of conduct, be aware of procedures from handover. There must be no pre-ticked boxes/overall agreement: members must give consent to specific questions.

There is no precedent; the next 6 months will give more insight.

Access to data

The data subject can request if any data is stored, what and how; they can refuse if there is no relationship or it is used in a vexacious way

Dos & Don’ts

Use passwords on documents sent by e mail- send password separately = the same for anyone passing it on again

Don’t store personal information without clear intent, and don’t accept it without knowing what it is

Don’t assume consent has been given

Don’t print data if it can’t be controlled (and consent is not clear)

Privacy notice for Centres when signing up new local members = good practice; eg “theCentre of the MSCC Ltd will store your data securely and will only use it to contact you for club related matters that are relevant to your Morgan ownership/interest” “I agree to the Centre storing my personal data to allow Club correspondence & information to be sent”

Questions to be addressed

Non EU & overseas Clubs; mostly personal activity

Registration numbers & captions in the calendar & Miscellany- consent given when submitted

Hope you’ve got that all clear now!
